We, the Senior Class, have come to the close of four happy years spent together in high school. During this time we have shared the joys and sorrows and have formed friendships that shall never be forgotten. To preserve these memories of our wonderful school days, we sincerely hope that this edition of the *Islander* will help us remember those days at B. I. H. S.

CARL VAUGHN ARRINGTON

In school he is known as
a carefree boy
But in his classes, Art
is a real joy
For in this world of jobs
he'll always lead
In working with trucks and
cars he will succeed.

BETTY JEAN ARTHUR

In work or play she is best
all around
For Business College this
fall she is bound
In her eyes we never see tears
She'll go smiling through the
years.

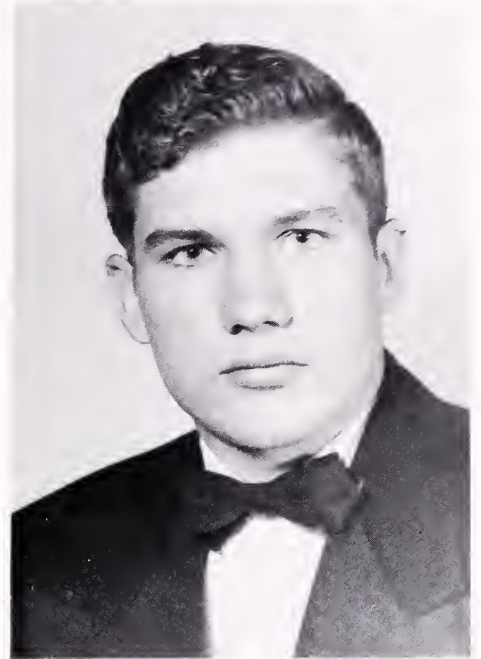

ROBERT THOMAS BROWN, JR.

As an example, this is one
Who is always full of fun
During every basketball game
all the girls shout,
"He is the cutest" just about.

ARTHUR HUGH BURKS

He is always a carefree lad
Who thinks working with cars
is not bad
At school he is sometimes late
But you see, "Sue" is always
his date.

EDITH MAE DEWITT

Edith, all of us wish
for you
Sunny skies, always
bright blue
For you are sweet and
likeable too
How could the Senior Class
work without you.

DOTTIE MAE FARLEY

Dottie is quiet, pretty and
neat
With brush and paint she can
create beauty
Whenever the class bell rings,
she takes her seat
Because she likes to do her
duty.

GLENNA MURIEL FIFER

You know in our class
its because of you
That work, play and
jazz carried us through,
Your playing on the
school basketball team
Showed us your good
nature, and radient
beam.

ALMA JEAN HARRIS

Here's a Senior girl
liked by all
No matter what the job may be
she answers the call
Friendly, gay and full of fun
She is still loved by everyone.

PATRIA MANLEY JOHNSON

She is one of the hard work-
ing in our class of 23
When any job is to be done
she sings with glee
Such "Strong-doings" stuns
us al'
But she answers any call.

AUDREY LUCILLE MARKHAM

She may be very tall in
height
But her personality is always
cheerful and bright
She is good in Gym and Art
We all love her for her big
heart.

NORMA GAYE MCNEELY

Violet eyes and curly hair
You'd think she never has a
care
But under neath her quiet
ways
Norma has the "grit" that
stays and stays.

JACQUILINE OLIVER

Under her hair of red
Is a very clever head
Busy always as a bee,
Jackie is a "champ"
we see.

RAMONA MYRENE ROSS

Just to show you what
a student can do
We'll place the picture
in front of you
Quiet, but quick, she's
handy with a pen
In the battle of life
she is sure to win.

IRIS LOYD ROUTON

With the piano keys
This Song-bird is a "Whiz"
Pretty good at typing too
All she lacks for a perfect
life
Is someone with whom to
"bill and coo."

EMMA LOUISE SANDERSON

As steady as an oak
And as true as the
proverbial blue
Never will she be
found
Doing any wrong to
you.

WILLIAM PENDLETON SHEPHERD

He's a worker from way
back
Always pleasant and of
jokes he has no lack
Without his help this
class would be
Worried at times as
could possibly be.

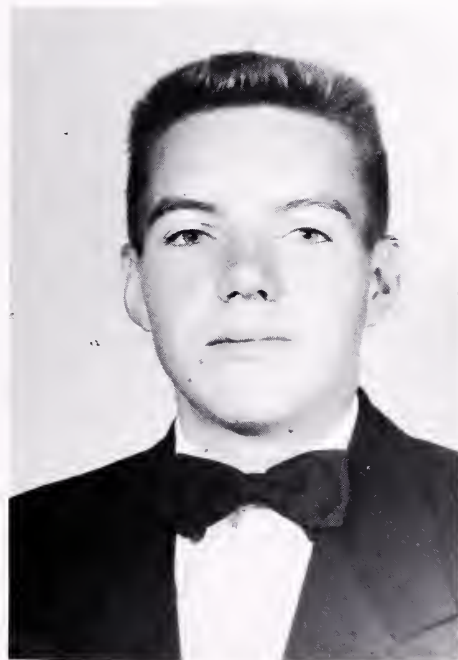

MILTON DEWEY SOWELL

A new comer to our halls
of learning
He always seems for new
fields to be yearning
We hope that all his dreams
come true
As here at B. I. High they
flourished and grew.

ROBERT PERROW TAYLOR

A real scientist is in
our midst
We wonder if he's ever
been kissed!
He's always a student
of subject matter
He gets the "gist"
Guess we'll put him
at the head of our list.

SHIRLEY ANN TOLLEY

Just like a baby doll
With clusters of curls
and eyes of grey
Shirley won all our
hearts
And in them will always
stay.

ALINE DAVIS TOMLINSON

You've heard of "Mona Lisa"
and her smile?
While looking for her in a
book
We happened to take a second
look
and found she was Aline all
the while.

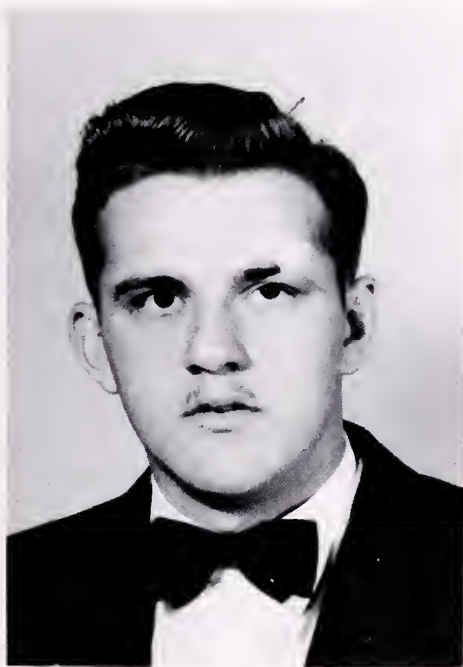

PHYLLIS ANNE TURPIN

Phyllis is dark, silent
and pretty
When she speaks its always
something witty
She offers her service
when there is need
And thus everyday does
her good deed.

WILLIAM RANDOLPH WILLIAMS

At water skiing, he is a whiz
In school he doesn't like a
pop quiz
He rates high in classes of
art
In our town he has a good
start.

ROBERT JAMES WILLIAMS

In this world of fuss and fury
Robert is his judge and jury
Asks himself "What do I want
most in life"
Answers this "Only Norma as
my wife".

TO THE CLASS OF '56

We've reached the top rung
in the ladder of school
Where joy and sorrow ensue.
We've come a long way
but just a small way
With much left to do ere we're through.

To each has been given
a talent and a mind
To make our task here well done.
To each has been given
a choice to make. .
Our duty to do or to shun.

We'll soon take our lives
to where we see best
To labor, to toil and to play.
But may we remember
our duty to do
Before the close of each day.

This world holds in store
a place for us all
Our destiny shines plain and clear.
Our Father above
grants us faith pure and free
That our good works may ever adhere.

To you is a challenge
to meet every day
For some day your life here will end.
And then you must answer
for all you have done.
How has your life on Earth been?

CLASS PROPHECY

It was the summer of 1975 when I left my home in Hawaii and plunged into the Pacific to swim to the United States and visit all my old classmates. However, after swimming about two hundred miles I decided to continue by boat, which I found to be faster and a great deal easier.

Upon arrival, my first stop was Burks' Ford Motor Company where I was presented a 1975 Ford convertible by Arthur Hugh Burks, owner of the Company. He was assisted by his wife, the former Emma Lou Sanderson. Their eleven children are all in high school or college. After a tour through the plant I continued southward, in my new Ford, to a huge sawmill. It was the G. D. Smith Lumber Company, of which Bobby Brown is General Supt., and his wife, the former Myrene Ross, is head bookkeeper.

My next stop was the David Mitchell Elementary School at Sedalia, of which Pendleton Shepherd is principal. He became principal of this school after resigning as assistant principal of Big Island High School. Soon he will go to Bedford to become principal of the new \$6,000,000,000 County High School. I am certain he will be a great success. While at Mitchells' School, I saw another of my classmates, Miss Edith Mae DeWitt. She has been teaching school for fifteen years. She is an Old Maid, but I think she has her eye set on Mr. Shepherd. While talking to Edith, I found that Glenna Fifer had become a professional basketball player. She has won many awards for her great playing. In her spare time she coaches at Mitchells' School.

Another of my former classmates, Professor Robert P. Taylor, who has made a name for himself in nuclear research, has just been awarded the Order of the Garter by the young King of England for inventing a gas which covers the British Isles so completely that they are impregnable from attack by any type of nuclear weapons. Robert has just given \$4,000,000 to the Nuclear Research Laboratory. I know his name will live forever.

After traveling a while, I stopped for gas at the Big Island Crossroads Garage of which the proud owner is Carl Arrington. He took over this job after retiring as Captain of the National Guards.

From here I continued southward to Crocodiles Pond where I witnessed some fancy water skiing. One of the leading attractions was my classmate, Randolph Williams. He had won all trophies in the United States for water skiing, and will soon be crowned King of the Water Sports World. During the winter months, Randy designs high speed boats and airplanes at the C. Q. Boeing Aircraft Plant up North.

After spending several weeks in Florida, I returned to Big Island and went on a tour of the huge new paper mill built by National Strainer Corporation. As I stepped into the main office there was Robert Williams seated behind a four by eight foot mahogany desk from which he directed the mill's operations assisted by his wife, capable secretary, who is the former Norma McNeely. While talking with Robert, I learned that Milton Sowell has become a world-wide evangelist. He is now preaching in Paris where he will stay for six weeks. He is a great person and I know he will continue in his good work.

After leaving the mill, I visited Patria Manley who is now living at Parris Island, South Carolina Marine Base where her husband, Colonel Johnson is in command. Patria's oldest daughter is forward on the Parris Island High School basketball team, and her son is a great tackle on the V. P. I. football team. They named their home at Parris Island, "Red Hill" in memory of her childhood home, near Big Island.

CLASS PROPHECY

My next stop was to see another classmate, Jackie Oliver, now Mrs. Billy Turpin. After many years of medical study she has become a widely known physician. She is the owner of the new hospital, The William Turpin Memorial Hospital, which is located on Turpin's Hill. She is very happy in her married life, and is proud of her set of twins, Jackie and Billy. We know she will continue to be a success as a doctor.

After leaving Jackie, I went to see Audrey Markham, who is now Mrs. John Riley. They own a thousand acre farm at Montvale, on which they have 700 head of cattle and 100 riding horses. The farm is located on Goose Creek Road. They are training their two daughters, Mildred and Edith, to become great horseback riders. I know they will be a great success.

Betty Arthur, another of my classmates, has just received an award for the greatest actress of the year. Besides making movies she is now appearing on television. There is gossip that she is engaged to the movie actor, Reginald Wilson.

My next stop was to see Shirley Tolley who is now Mrs. Lyle Breeden. Shirley and her husband are great hillbilly singers. They sing over the radio, and also appear on the "Grand Old Opry", that is, when they can find a baby sitter for their triplets. During my visit at Shirley's I learned that Iris Routon had become a concert pianist. She has traveled all over the world appearing in operas, and also has just made a movie of her great life. I don't know, but I think she is taking Liberace's place. The only thing she lacks is "Brother George".

I continued on my journey to see Jean Harris, who is now Mrs. Sonny McNeely. When she finished school Sonny was in the Navy, so she joined the Waves. They served five years overseas, and by this time they were longing to be back home, so after being discharged, they returned to dear old Big Island with their three sons and their daughter, Sunny Lee.

As I started to leave, I walked Dottie Farley, who was visiting here. She has become a famous American artist and is married to a famous painter, Lord du Bonnet. With her were her four children who all have blond hair and blue eyes. She spends her summers on the coast of England and France and her winters in Florida. As Dottie and I were talking I learned that Aline Tomlinson had married a rich businessman, Vernon Van Cleve, and has become a great dress designer. She designs and sews for her husband's huge clothing store in New York. During her spare time she works at a studio photographing models for Mademoiselle and Seventeen magazines. Besides all this, she leads a highly social life.

Last but not least, I guess I had better give an account of myself, Phyllis Turpin. I am President of the Business and Professional Women's Club of Virginia. I own a large store and farm machinery business at Charlemont, the hub of a thriving Air Force station and radar center. My farm at Lone Pine is now being purchased by DuPont for \$10,000,000 since uranium and manganese were discovered there. After taking care of my business here I plan to return to Hawaii.
